

ROGER RAY R. CRUZ

PERSONAL PROFILE

As an aspiring website developer and current IT student, I am deeply passionate about coding and possess a strong foundation in logical thinking. My journey into the world of programming began in high school, where I discovered my love for creating solutions to intricate complex problems. Eager to learn and adapt, I always stay updated on the latest trends in web development, constantly enhancing my skills to contribute effectively to innovative projects.

WORK IMMERSION

Creotec (2021 - 2021)

- I gained a valuable experience during my work immersion at Creotec such as communicating effectively with other students for more efficient productivity.
- I was assigned to be a leader on my department, leading other students. We were tasked to create 3 applications using app inventor: creopay, creofit, creoboard.
